

# PEYRONIE'S DISEASE: THE FACTS

Peyronie's disease causes the **erect penis to bend and shorten**, and can make erections painful and sex difficult or impossible, with severe consequences for relationships and mental health.

**1 in 20** men in the UK have Peyronie's disease<sup>1</sup>

**60%** of men have suffered **depression** because of Peyronie's disease

**1 in 10** relationships have **broken down** completely due to Peyronie's disease

**25%** of men with Peyronie's disease are **no longer sexually active**

**45%** of men with Peyronie's disease say their **doctor** wasn't helpful

**40%** of men with Peyronie's disease were not offered any **treatment** at all

**1 in 10** of men with Peyronie's disease tell no-one about it...not even a doctor!

**20%** of men with Peyronie's disease feel they will be **laughed at** if they talk about it

The British Dupuytren's Society is fundraising to provide support for men with Peyronie's disease and raise awareness.
