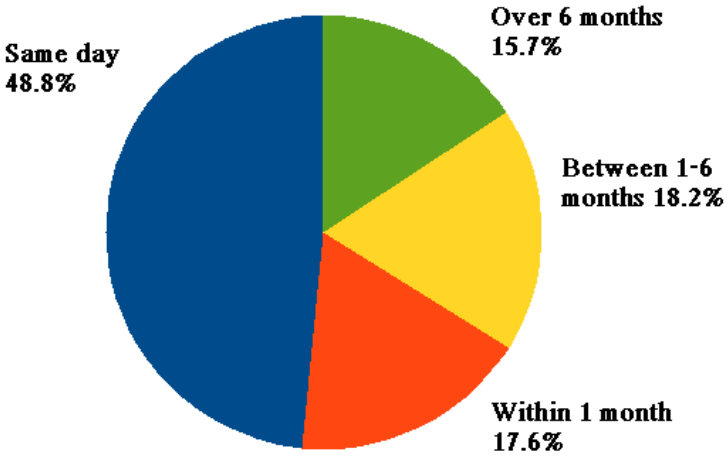
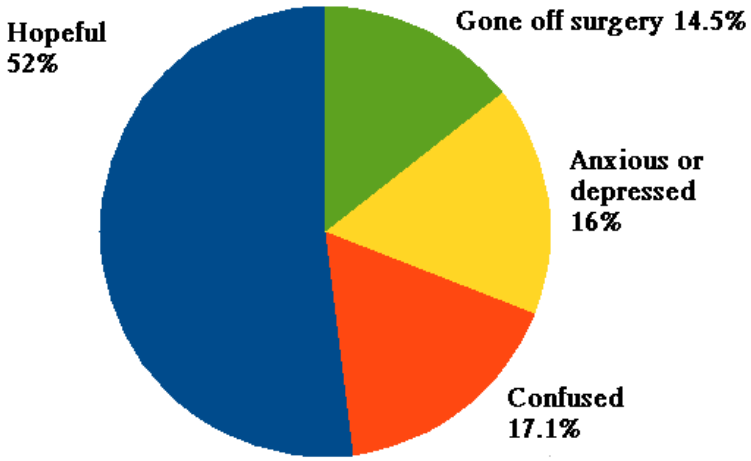
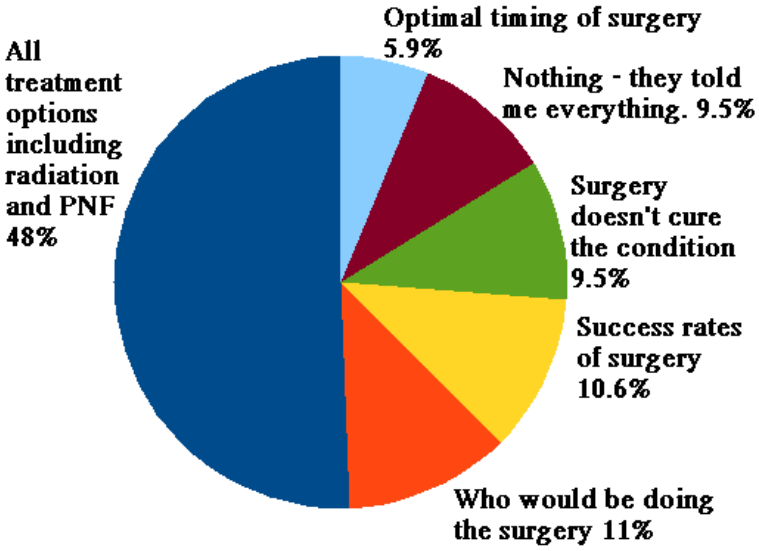
How long from the first consultation to getting a diagnosis by a doctor?



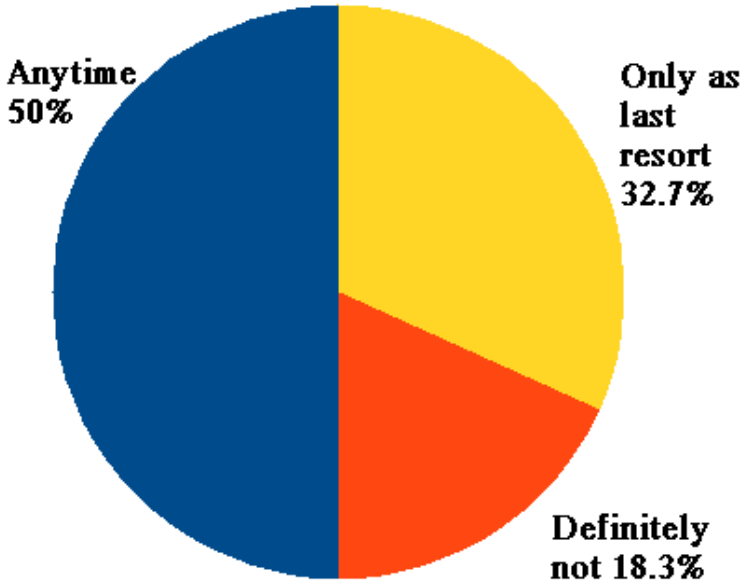
How did you feel after the first surgeon consult



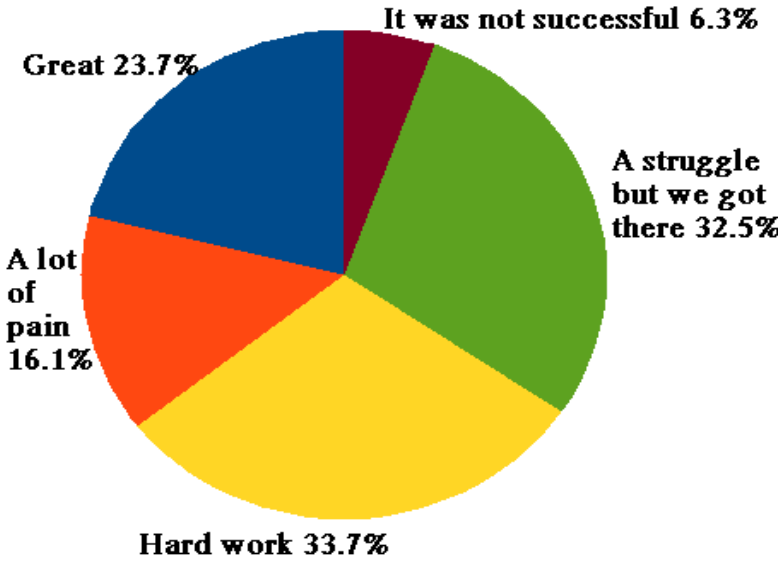
What do you wish the surgeon had told you that you had to learn elsewhere?



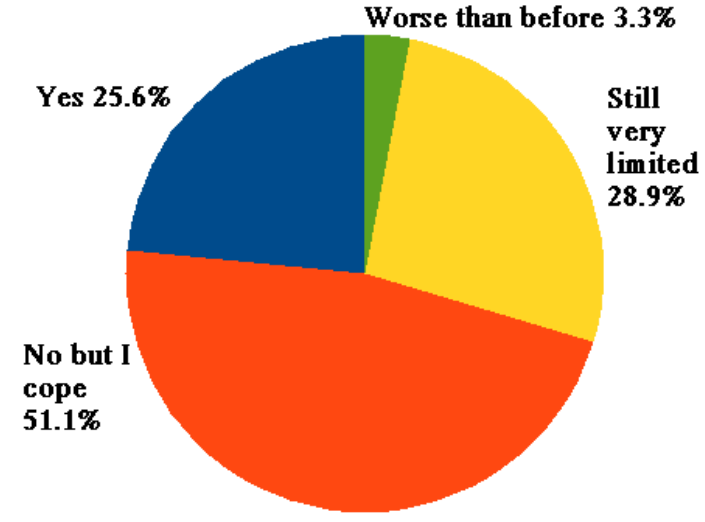
If you had open surgery (fasciectomy) already, would you have it again



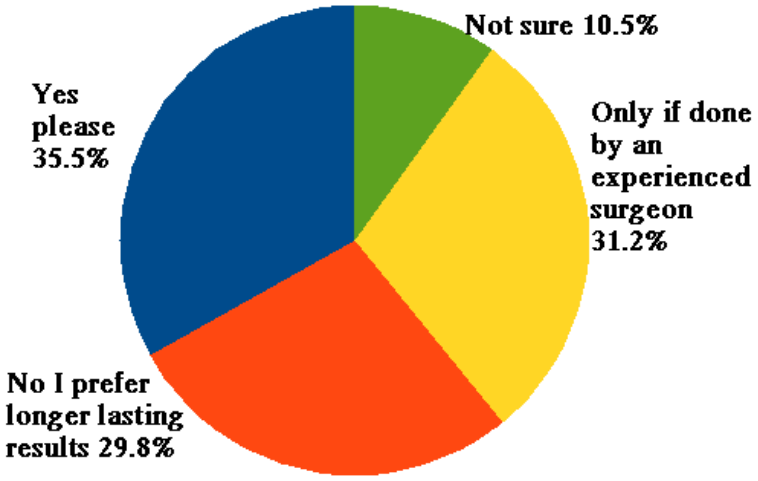
If you had open surgery, how was the recovery?



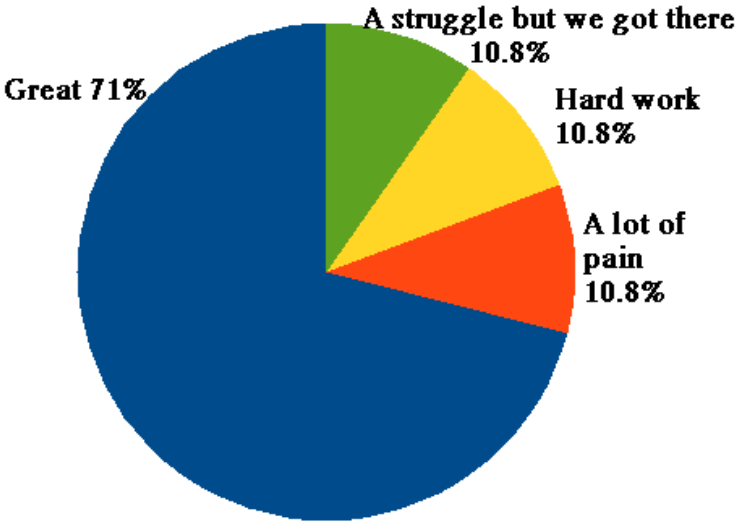
After open surgery can you do everything with that hand you could before the Dupuytren's?

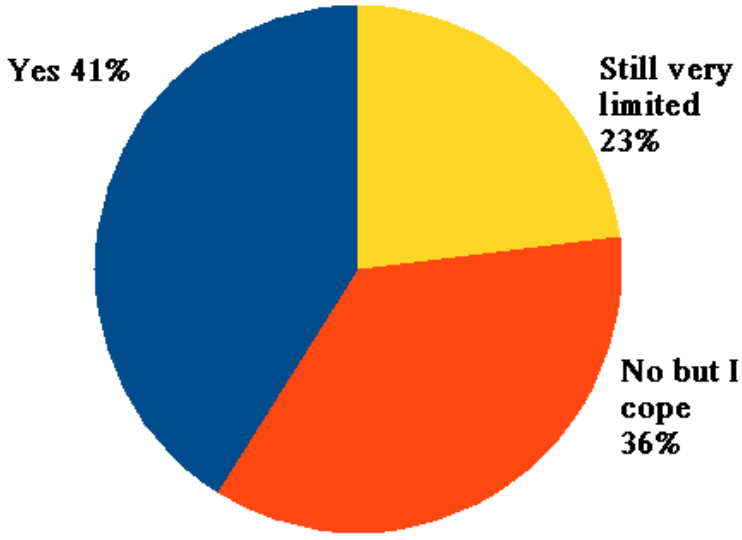


Would you have needle fasciotomy if it was offered



If you had the needle release, how was the recovery?





After needle release can you do everything with that hand you could before the Dupuytren's?
